Fall-Protection

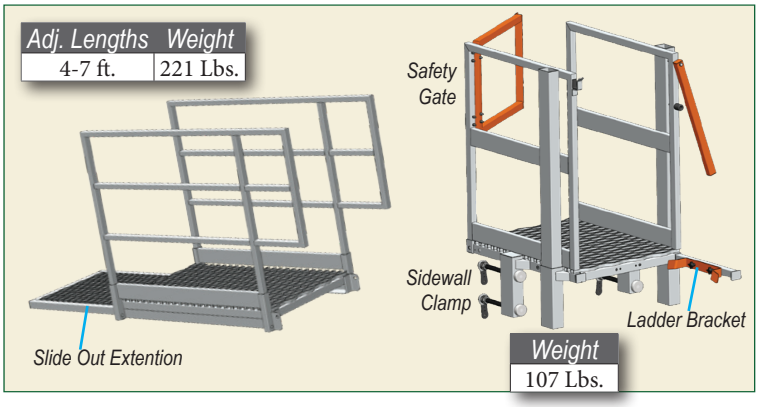

Shoring Platform, Telescoping Walkway, & Guardrail

Access/Egress Shoring Platform:

Code: BTS6928

OSHA requires walkways and guardrails when crossing over excavations six feet or deeper. The BTRENCHSAFE® *Shoring Platform and Telescopic Walkway* provides a safe means of access and egress to and from the excavation.

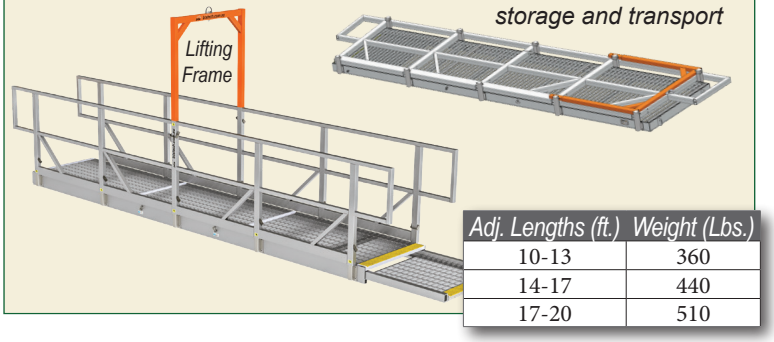

Compatable Telescopic Walkway

Available in three adjustable lengths

Collapsible for easy storage and transport
